ACKNOWLEDGMENT

Alhamdulliahhirabbilalamin. All praise to Allah SWT for guiding and blessing hence this thesis could be finished, and for giving me abundance of endowment in my life. I would recite Shalawat and Salam to Muhammad, the messenger for all people. Finally, I could complete my thesis to obtain a Bachelor of Economics Department of Management at International Program Faculty of Economics, Universitas Islam Indonesia. I am fully aware that this thesis would not be completed without the guidance, support and assistance from various parties. In this moment I would like to thank:

2. My Mom and Dad, Ratnawati and Ibnu Amin. My-hardworking parents have sacrificed their times and resources for me and provide unconditionally love and care. I love them so much, and I would not have made it this far without them.
3. My siblings Syarief Hidayat Amin and Raden Ayu Mutiara Denon. My brother and sister have been my best friends all my life and thank you for advice and support.

9. All IPFE lecturers and IP students in all years. Thanks for all the knowledge and such joyful moments that you've shared with me.
10. All my classmates from IP management '011, thanks to you all.
11. My best moments with my best friends and friends or those who come by and go away, Mahendra, Fauzi, Nadhif, Binarin, Aan, Aldi, Bayu, Gilang, Jedi, Baim, Gladis, and many more. I'm sorry I cannot mention all the names, but they make me who I am.
12. My favorite person, Marestha Dora.

I am afraid that unintentionally I may have forgotten to mention some individual names and or parties who have been involved in this thesis completion process. Thus my deepest apologies are credited to them. I realize that this thesis is still far from perfection due to the limited ability and knowledge that the writer had.
